PROFILE SUMMARY

Enthusiastic and curiosity-driven Mobile Application Developer having experience of more than 3.5 years. I've a strong background in cross-platform mobile app development. Proficient in developing robust and user-friendly applications, optimising UI/UX design, and managing CI/CD pipelines. Experience Agile practitioner with a proven track record in efficiently managing cross-departmental projects. I have a good command of modern tools and technologies used in Flutter development and Native Android development. I have great experience in telecom projects also like Mobily, Salaam Mobile and Zain Sudan. My aim is to lead projects to compilation.

SOFT SKILL

- Teamwork
- Communication
- Attention to detail
- Open-Mindedness
- Multitasking
- Adoptability
- Time Management
- Self-Awareness

TECHNICAL SKILL

- Flutter
- Android
- iOS
- Github
- Unit Testing
- Integration testing
- State Management like BLOC, Provider and GetX
- Dependency Injection
- Agile
- MVVM
- Data Persistence
- REST APIs
- Google Maps SDK
- Deep Linking
- Node.js
- MongoDB
- Express.js
- CI/CD pipelines
- AWS development

WORK EXPERIENCE

Senior Flutter Developer

Feb, 2020 - Jul, 2023

Tsoftek (USA based company in Lahore, Pakistan)

- Design and develop Flutter applications.
 - Monitor work against the production schedule closely, provide progress updates, and report any issues or technical difficulties to senior colleagues regularly.
 - Collaborate with cross-functional teams to define, design, and ship new features.
 - Work with outside data sources and APIs.
 - Collaborate with UI/UX designers to ensure pixel-perfect user experiences.
 - Unit-test code for robustness, including edge cases, usability, and general reliability.
 - Work on bug fixing and improving application performance.
 - Diagnosed and resolved technical issues, ensuring app reliability and stability.
 - implemented robust security measures, such as HTTPS and data encryption, to safeguard sensitive user data.
-

- Redesigned and implemented robust mobile apps for optimal user experiences, driving high engagement and retention rates.
- Led the implementation of new features, delivering successful outcomes on time and within budget.
- Introduced a testing layer and optimization techniques to identify and resolve bottlenecks, resulting in improved app responsiveness and reduced loading times.
- Transformed mobile app performance and user experience by leading the migration from technology to cross-platform.
- Work on bug fixing and improving application performance.

EDUCATION

Bachelors of Science in Software Engineering
University of Engineering and Technology, Taxila

2017 – 2021

Intermediate
Fauji Foundation College Kallar Kahar

2015 – 2017

CERTIFICATIONS

- **Mobile App Development in Flutter Framework**
Udemy
- **Microsoft PowerPoint and Microsoft Word Specialist**
Microsoft

PROJECTS

- **Salam Mobile**

A telecom project for Saudi Arabia. With Salam app, we can have the access to your mobile account, explore different packages, subscribe to a new one, and find offers that will make your Salam Mobile experience worthwhile.

A hassle-free journey with a few easy steps, and in less than two minutes, you are officially part of the Salam world. It is not published on PlayStore as it is being used by specific dealers in Saudi Arabia.

- **Thinknlocal**

Thinknlocal helps community residents and local consumers give back to non-profit organizations and schools by simply doing what they do every day.

Users can support local businesses and worthy fundraising causes with each shopping trip! Simply upload receipts inside the thinknlocal app to instantly contribute to the local fundraiser of your choice – at no extra cost to you!

PlayStore: https://play.google.com/store/apps/details?id=com.thinknlocal.Thinknlocal&hl=en_SG
AppStore: <https://apps.apple.com/us/app/id1524846479>

- **Fit and More**

Fit and more is a platform that will allow users and fitness/sports coaches to finally adopt a centralized digital channel. YOU as a coach would be able to distribute your workouts to the world, and YOU as a user would be able to select whomever, coach, you want and follow their customized workout routines and videos without even sending them an email or contacting them through other digital channels.

PlayStore: https://play.google.com/store/apps/details?id=com.fitandmoreapp&hl=en_GB&gl=CA
AppStore: <https://apps.apple.com/us/app/fit-and-more/id1596416490>

- **Birders Nearby**

Birders Nearby is a Social Networking App exclusively for Birders. While using the app you will be able to discover, in real-time, the birds that are being seen and nearby, with directions to the exact location of a target bird. You will be able to communicate with birders nearby as well and enjoy birding in a new and fun way.

PlayStore: https://play.google.com/store/apps/details?id=com.birders.birders_nearby&hl=en_GB&gl=CA&pli=1
AppStore: <https://apps.apple.com/us/app/birders-nearby/id1474431263>

- **Zama KP – Excise Taxation & Narcotics Control Department KPK**

Zama KP app enables you to perform all services related to Excise, Taxation and Narcotics Control Department like:

- View vehicle registration info
- Token tax payment
- Dues and penalty payments

PlayStore: https://play.google.com/store/apps/details?id=com.kpexcisetaxation.zamakp&hl=en_SG

- **Buyonic Ecommerce App**

Proficiently designed and developed Ecommerce mobile application (Admin and User side) which has all the features of listing, adding wishlists, add to cart, chatting, advanced searching, push notifications, shipment etc.
